Election/Restrictions

1. The Examiner notes that after the preliminary amendment filed October 31, 2003, claims 1-10 and 14 have been canceled.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 11-12 and 18-24, drawn to a method, classified in class 427, subclass 8.
 - II. Claim 13, drawn to a composition, classified in class 106, subclass 316.
 - III. Claims 15-17, drawn to a method, classified in class 427, subclass 8.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions all have different modes of operation.

Invention I requires contact angle limitations and a thickness relationship not required by the other inventions.

Invention II requires a liquid composition that can be used in other methods than of Invention I and III.

Invention III requires a distance relationship not required by the other inventions.

Art Unit: 1762

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to the office of R. Burgujian on Dec. 15, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made. Mr. Burgujian was out of the office that week.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Katherine A. Bareford whose telephone number is (571) 272-1413. The examiner can normally be reached on M-F(6:30-4:00) with the First Friday Off.
